

## Where can I get support to provide clinical care at the end of life?

The Clinical Action section of the Primary Care toolkit will help you to provide palliative care and advance care planning advice for your patients and their families.

Clinical Action provides evidence-based clinical tools and educational resources for clinicians, as well as information for patients and their families within the following clinical domains:

- Advance care planning;
- Recognising end of life;
- Assessing palliative care needs;
- Providing palliative care;
- Working with other care providers;
- Responding to deterioration;
- Managing dying;
- Bereavement;
- Providing palliative care to underserved populations.

**End of Life Directions for Aged Care (ELDAC) is a free, government-funded resource. The Primary Care toolkit connects you with evidence-based tools in palliative care and advance care planning.**
